Visual Art 2025

Sample teaching, learning and assessment plan

Unit 4: Art as alternate

Unit description

In Unit 4, students continue and build on their focus, knowledge and art practice from Unit 3. They refine their expression and personal aesthetic by applying skills associated with creative thinking. Students resolve their body of work through the concept ‘art as alternate’ as they imagine, generate and apply new ideas and links. Through the pursuit of an individualised response, they challenge their approaches to identify alternatives and opportunities for innovation.

Students foreground the contemporary context to develop new meanings through a lens of 21st century art ideas and issues. They simultaneously select from the personal, cultural and formal contexts to examine and compare visual language, expression and the communication of multiple meanings in various art forms.

Students use the inquiry learning model to resolve their body of work. They challenge their own art-making practices by researching and developing new knowledge of and skills in art materials, techniques, technologies and processes. They look for opportunities for focused experimentation and risk-taking. They explore how new and multi-modal technologies can alter and enhance their ideas. Students determine alternate representations or expansions of their ideas by reflecting on their work from Unit 3 and considering how exploiting existing approaches or applying new knowledge and skill may enrich meaning in their body of work.

Students consider the roles and interaction between artist and audience. As audience, students consider how alternate methods of display and exhibition, contemporary approaches with media and new technologies impact upon the sensory experience and engagement with art. As artists, students consider the role of art in the dialogue with audience. They evaluate how alternate approaches in a body of work can develop and expand the communication of meaning and fully realise artistic intentions.

Unit objectives

1. Implement ideas and representations that challenge, extend and refine existing knowledge.
2. Apply literacy skills to communicate knowledge of art practices and individualised ideas.
3. Analyse and interpret the impact of contemporary context on visual language, expression and meaning in artworks and art practices.
4. Evaluate influences to inform an alternate approach.
5. Justify new viewpoints and evolving ideas.
6. Experiment with familiar or alternate media to solve visual problems informed by research of contemporary art practice.
7. Create visual responses using knowledge and understanding of media to support alternate approaches.
8. Realise responses to communicate intended meaning.

Assessment plan

Assessment details	%	Objectives to be assessed	Conditions	Date
Unit 4: Project	30%	1. Implement alternate ideas and representations to communicate concept, context/s, the inquiry question and focus. 2. Apply literacy skills in artist’s statement/s that make connections between the focus, inquiry and artwork/s using relevant visual art terminology and language conventions. 3. Analyse and interpret alternate visual language, expression and meanings in artworks to explore new viewpoints through a contemporary context. 4. Evaluate influences that impact alternate approaches and communication with audiences. 5. Justify an alternate viewpoint supported by knowledge gained through continued self-directed inquiry. 6. Experiment with familiar or alternate media and ideas relevant to the focus and informed by research of contemporary art practice.	• Students can develop their responses in class time and their own time. • This is an individual task. • The focus from Inquiry phase 1 and annotated image/s of the resolved work from Inquiry phase 2 assist demonstration of alternate representations or expansion of ideas. The focus and the annotated image/s are not reassessed. **Response requirements** **Evidence of IA1 and IA2 inquiry (not for reassessment)**	Mid Unit 4

260168

Assessment details	%	Objectives to be assessed	Conditions	Date
		7. Create visual response/s using knowledge and understanding of media to support alternate approaches. 8. Realise a body of work through an inquiry to communicate artistic purpose and meaning to audiences.	Multimodal (at least two modes delivered at the same time): • inquiry question and focus from Investigation — inquiry phase 1 • evidence of Project — inquiry phase 2 sufficient to demonstrate the realisation of the body of work in IA3; up to 3 existing IA2 slides, e.g. – annotated image/s of the resolved work from Inquiry phase 2 – IA2 artist statement and/or – photographic documentation of IA2 resolved work **Resolved artwork/s** • Student-selected media • Resolved artwork: unlimited pages/slides of photographic documentation, including images of detail and/or display; text to specify title, media and size only — one of the following – single resolved work – a collection of resolved artworks **Artist's statement/s** Written: up to 150 words per statement (name, title, media and size are not included in word count) — one of the following: • one artist's statement for a single artwork or a collection of artworks • multiple statements for individual artworks in a collection **Annotations** Multimodal (at least two modes delivered at the same time): 1 page/slide with images of all resolved works in the submission and up to 200 words — one of the following: • annotations for a single artwork • annotations for a collection of artworks presented together on 1 page/slide **Supporting evidence** Multimodal (at least two modes delivered at the same time): up to 4 pages, slides, or similar, containing experimental artwork/s, sketches, diagrams, graphic organisers, images, photographs and/or collections of stimulus with notes, annotations and/or reflective commentary.	
Unit 4: External Exam	25%	1. Implement decoding skills to read visual language and communicate understanding of ideas and representations in artworks. 2. Apply literacy skills, using relevant visual art terminology, reference to artworks and language conventions to recognise and distinguish features of selected artworks and practices. 3. Analyse and interpret visual language, expression and meaning in artworks through a specified context/s.	**Specifications** This examination requires students to: • respond to an unseen question selected from various options and unseen stimulus	External examination session term 4

Assessment details	%	Objectives to be assessed	Conditions	Date
		4. Evaluate art forms to appraise the significance of relevant similarities, differences and ideas. 5. Justify a viewpoint supported by evidence of artistic processes, intentions and expression. **Note:** Objectives 6, 7 and 8 are not assessed in this instrument.	• analyse, interpret, evaluate and justify to fully answer a question • respond in the form of an analytical essay that expresses a viewpoint. **Stimulus specifications** • The QCAA provides succinct unseen stimulus with contextual information. **Conditions** • Mode: written • Time allowed – Planning time: 20 minutes – Working time: 120 minutes	

Teaching and learning plan

Time	Subject matter	Learning experiences	Resources
7 hours	**Developing** Students: • develop alternate approaches as they generate and apply new ideas and solutions to self-directed visual problems • implement – creative thinking skills to challenge art practice and develop possibilities by combining, changing or reapplying existing ideas – alternate ideas to extend their focus through exploration of divergent approaches and key contemporary artists, including artwork by Aboriginal peoples and Torres Strait Islander peoples, artwork by artists from the Pacific Islands and/or artwork by artists from Asia • create alternate meaning through the knowledge, understanding and application of contemporary art processes – adopting the opposing, contrary or polar point of view to communicate the same focus ▪ suggested artists/artworks: Tony Albert, *Sorry*, 2008; Bindi Cole, *I Forgive You*, 2012 – questioning ideas and representations through the adoption of a different context ▪ suggested artists/artworks: Michael Zavros *Spring/Fall* series and Abdul Abdullah, *Coming to terms* series, 2015 – exploiting traditional materials, techniques and processes in new or unexpected ways ▪ suggested artists/artworks: Ricky Swallow, *Killing Time*, 2003-04; Owen Leong, *Infiltrator: Bone*, 2011; Lee Ufan, *Relatum – Momentum*, 2019 – employing parody or irony to communicate meaning ▪ suggested artists/artworks: Daniel Boyd, *Treasure Island*, 2005; Christian Thompson, *Museum of Others* series, 2016 – changing scale, multiplying forms or changing the site or location of the work ▪ suggested artists/artworks: Ben Quilty, *Livvi*, 2009; Simryn Gill, *Roadkill*, 2000; Rosemary Laing, *Groundspeed*, 2001	**Teacher-directed stimulus — Alternate forms of artistic authorship (collaborative art practice)** **Interactive anticipatory set** Responding: • introduce students to the Fluxus art movement of the 1960s – highlight some of the 'event scores' that were developed by Fluxus artists – discuss historical context and precursor art movements such as Dada, Conceptual Art and Art Provera. Making: • facilitate an 'event score' – challenge the class to participate in a collaborative art-making event – introduce the notions of chance, performance art, controlled collaboration, participative artwork, anti-art and conceptual artwork – model the conditions and clarity of instructions required to ensure success in enacting the score – debrief with students after the event to critique on ▪ how they felt as a participant in the event ▪ the aesthetic merits of the outcomes of the event ▪ suitable approaches to curate evidence of the event ▪ the issues of authorship surrounding the event and the culminating artworks created • suggested Fluxus-inspired event scores for whole-class collaboration – students ▪ create a concrete poem (where words or letters are placed in such a way as to form the shape of an object) about a topic or emotion that is meaningful to them using a manual typewriter or letters cut from a newspaper ▪ use found text and imagery to create a Fluxus zine on a specified topic photocopy in multiples for each member of the class ▪ are each given the same instruction card, e.g. inscribe a dictionary definition of a word they find interesting or thought-provoking and seek principal's permission to document the interventions of the definition in the school environment and the interaction of others engaging with the definition ▪ are each given a small roll of clear sticky tape and asked to intervene	• Kester, GH 2011, *The One and the Many: Contemporary collaborative art in a global context*, Duke University Press, USA, *ISBN* 9780822349723 and 9877 • handout — Traditional vs Collaborative Approaches to Art Production **Fluxus Art Movement** • *Tate*, 'Fluxus', www.tate.org.uk/art/art-terms/f/fluxus • *Remko Scha,* 'Word Pieces: Scores as concepts', radicalart.info/concept/scores.html • *The Art Story*, 'Fluxus', www.theartstory.org/movement-fluxus.htm • *Deluxxe gallerie*, 'Fluxus performance workbook' https://www.thing.net/~grist/ld/fluxusworkbook.pdf **Eric Lennartson** • *Childrens Museum Timelaps.mp4* www.youtube.com/watch?v=yvWTHEw-3uw **Sophie Calle** • *The Guardian*, 'He loves me not', www.theguardian.com/world/2007/jun/16/artnews.art • *Sophie Calle – Take Care of Yourself | TateShots*, www.youtube.com/watch?v=Q9E4dA0EGaM • *Paula Cooper Gallery*, 'Sophie Calle: Take care of yourself', paulacoopergallery.com/exhibitions/sophie-calle-take-care-of-yourself/installation-views **Alfredo and Isabel Aquilizan** • *ArtAsiaPacific, '*Set Adrift: Alfredo and Isabel Aquilizan', https://artasiapacific.com/issue/alfredo-and-isabel-aquilizan-set-adrift?locale=en • *Nelson Meers Foundation*, 'Alfredo + Isabel Aquilizan', https://nelsonmeersfoundation.org.au/project/cultureideas-alfredo-isabel-aquilizan/ • *QUT Art Museum,* 'Artwork in a box: Alfredo and Isabel Aquilizan', *https://www.artmuseum.qut.edu.au/learn/widening-participation/current/artwork-in-a-box-alfredo-and-isabel-aquilizan* **Candice Breitz** • *King (A Portrait of Michael Jackson), 2005*, https://vimeo.com/74959758

Time	Subject matter	Learning experiences	Resources
	– making a single calculated change in art materials, techniques, technologies and processes to alter the way audiences read, interpret and engage with the work ▪ suggested artists/artworks: Tsuyoshi Ozawa, *Vegetable Weapon: Nishime/Fukushima*, 2011; Hrafnhildur Arnardóttir/Shoplifter, *Planets* series, 2014–2016; Lucienne Rickard, *Extinction Studies*, 2019; Fiona Hall, *Afraid Cascade*, 2020 – exploring the digital equivalent of analogue technologies ▪ suggested artists/artworks: William Kentridge, *I am not me, the horse is not mine*, 2008 – moving between the two-dimensional plane, three-dimensional form or time-based media ▪ suggested artists/artworks: Deborah Kelly, *Beastliness*, 2011 – inviting others in as joint constructors of meaning ▪ suggested artists/artworks: Gosia Wlodarczak and Longin Sarnecki, *400*, 2010 – moving from high degrees of artist control and authorship of works to collaborative approaches that may require the relinquishing of some artist control ▪ suggested artists/artworks: Sophie Calle, *Take Care of Yourself*, 2009; Hiromi Tango, *Art Magic: The Climbing Tree*, 2015; Antony Gormley, *Field*, 1989–2003; Alfredo and Isabel Aquilizan, *In-habit*, 2012 – using an AI tool and engineered prompts to suggest or determine the next phase of the body of work ▪ suggested artists: Sam Leach, Jessie Hughes, Georgie Pinn • propose alternate display opportunities that enable audiences to engage with their artistic intent and meaning in new and innovative ways – suggested artists/artworks: Craig Walsh, *Murujuga in the Pilbara*, 2012–2013 • use appropriate health and safety practices that consider the impact of their arts practice on themselves and their environment. **Researching** How do artists react to stimulus? Students: • research alternative associations with artists and knowledge to evolve their focus and art-making, and build deeper connections as they react to stimulus • analyse and compare past and present artworks through the contemporary context and student choice of other relevant contexts, to interpret multiple perspectives, and evaluate how these challenge engagement, communication and meaning; through – making, students can test boundaries of their own art practice; they may reconceptualise, modify or explore appropriation of their own artworks and images, and may investigate the impact and place of new technologies on art practices and experiences – responding, students examine and interpret artworks and practices to establish how contemporary artists communicate new and authentic experiences and build meaning; they question and re-evaluate traditionally held values and assumptions of art and representation • analyse and interpret	in the school environment in a small transparent way to alter the perception of the environment around them (refer to the work of artist Eric Lennartson) ▪ are each given a folded piece of paper and a 6B pencil and allowed five minutes to form a mental image of a non-objective thing, e.g. a headache; students draw their image without showing their work; reveal together and display ▪ are presented with an old wooden chair (e.g. obtained from a charity shop); as a group they deconstruct the chair and collect one piece each; students collaborate and use gaffer tape or tools to re-construct the chair. **Teacher-directed inquiry — How do artists invite others in as joint constructors of meaning?** Responding: • students, with teacher guidance – research and reflect on specific key works and art practices of collaborative artists through case studies – use the handout 'Traditional vs Collaborative Approaches to Art Production' to plot where each case study artwork sits on the continuum. Guide students through case studies such as those below by outlining/highlighting the characteristics of the artists' practice; analysing the context in which the work is produced; and leading a discussion on a specific work. Case studies could include: • **Case study: key artist 1 — Sophie Calle** (French, born 1953) – art practice ▪ her work challenges the traditional notions of the role of artist and audience through her collaboration with others; blurs the idea of authorship by inviting others in to become 'joint constructors' of meaning in the work ▪ Calle uses photographs and text to create narratives that are part-fact and part-fiction ▪ she explores universal themes of vulnerability, identity, communication, memory, surveillance, public and private lives and perception in her works ▪ she often casts herself in multiple roles as private investigator, psychologist and forensic scientist – analyse and interpret through contexts ▪ contemporary context — purposely challenges the notion of artist as sole producer of an artwork; uses contemporary photo media and film to convey meaning ▪ personal context — most work explores narratives from her own life ▪ cultural context — regarded as feminist in that her work challenges notions of female power and control and the roles of women in society ▪ formal context — she uses formal arrangements and curatorial devices to contribute meaning to the final installation. • Lead a discussion – students view *Sophie Calle – Take Care of Yourself* | *TateShots* ▪ an installation of photographs, graphics, reading materials and videos in response to an actual break-up letter that Calle was sent from her boyfriend and shared with 107 female collaborators who each contributed their interpretation of the break-up letter – prompted by the teacher, students respond to the following ▪ What media and materials are utilised by Calle's collaborators in the	• *John McDonald,* 'Art column — Candice Breitz: The character', https://www.johnmcdonald.net.au/2013/candice-breitz-the-character/ **Deborah Kelly** • *19th Biennale of Sydney: Deborah Kelly. Time	Subject matter	Learning experiences	Resources
	– the practice of contemporary artists not previously studied who engage with divergent approaches – through reverse chronology approaches to explore historical influences on key artists • experiment with – familiar or alternate media to extend ideas, knowledge and working methods informed by research of contemporary art practice – visual language, expression and meaning in contemporary art images, objects and experiences and the way they can be used to subvert literal meaning – design and selection of options for display and exhibition of works to enhance meaning. **Reflecting** How do artists consider ideas and information, media techniques and processes? Students: • reflect on a range of contemporary art approaches to explore and consider alternate ideas as they construct new personalised meaning • evaluate – how contemporary artists enhance and communicate alternate meaning through innovative art practices and exploitation of audience expectations – initial artworks in body of work with intention and meaning – ideas for alternate methods and/or approaches to expand communication of focus and meaning – the impact of key contemporary artists from diverse practices, traditions, cultures and theories to develop and inspire alternate representations and meaning in their own body of work – researched knowledge to assess key ideas and areas for development • justify – individual art practice by documenting process to make meaningful connections and inform evolution and refining of student focus and making – choices and application of alternate approaches to explain how new viewpoints or interpretations are communicated • reflect on the reactions that audiences may have when viewing their artwork, the unanticipated associations or readings that audiences bring, and the opportunities to use these insights to develop new meaning. **Resolving** How do artists communicate individual ideas as visual, written or spoken responses? Students: • resolve their body of work as they communicate in visual and written responses • apply – literacy knowledge and skills to understand form and structure of extended paragraphs and essay responses	interpretation of the letter? ▪ Calle's work is often referred to as 'conceptual art' because it has an emphasis on the artistic idea rather than the finished object. Find a definition of conceptual art. How does *Sophie Calle – Take Care of Yourself* | *TateShots* fit this definition? ▪ select one interpretation from the installation they consider to be the most conceptually interesting or thought-provoking and justify their viewpoints ▪ Which of the universal themes commonly explored by Calle are evident in the installation? ▪ What aspects and stages of this work did Calle control and have input into? ▪ What role does Calle invite the audience to take on when viewing the artwork? ▪ Who is the 'author' of this artwork? • **Case study: key artist 2 — Alfredo and Isabel Aquilizan** (Philippines-born husband-and-wife team, live in Brisbane) – art practice ▪ work often focuses on the transience of life and people's attempts to create a sense of permanence and belonging; also themes of marginalisation, migration and displacement (diaspora) ▪ processes of collecting, massing and recycling with unwanted, discarded or redundant found objects and materials in the construction of large scale installations ▪ collation, collections, accumulation and multiplicity are key terms used in critical appraisal of their work ▪ materials communicate ideas and become signifiers of meaning ▪ often includes sound, scent, taste and touch ▪ set up 'collective interaction' to create installations; the work becomes a platform for exchange of ideas and meaning; the audience are active participants and contribute their own meaning – analyse and interpret through contexts ▪ contemporary context — communication of contemporary issues such as migration and displacement; active participation from audiences to construct meaning ▪ personal context — draw upon their own experience of migrating from the Philippines to Australia and other real-life experiences ▪ cultural context — explore realties and representations that intersect between their Asian background and Australian lifestyle ▪ formal context — uses formal arrangements and repetition to create aesthetic interest and unity in their works. • Lead a discussion – students view *ArtAsiaPacific*, 'Set Adrift: Alfredo and Isabel Aquilizan' (In-habit: Project Another Country) ▪ installation consisting of cardboard houses and homes constructed in collaborative community workshops with the artists; constructions are installed in site-specific steel scaffolding ▪ installation is an abstracted version of homes built on stilts by the Badjao, a minority indigenous people who live in the Philippines and are considered 'ocean refugees' – prompted by the teacher, students to respond to the following ▪ Why did the Aquilizans choose cardboard as the primary material to create this artwork? ▪ How do the Aquilizans rely on others to be 'joint constructors' of meaning in this artwork? ▪ What aesthetic qualities does the completed installation have and how important are these attributes to the success of the artwork?	• *Digital odyssey: A museum of contemporary art touring project*, 'Posts tagged craig walsh: Digital odyssey starts in Ballarat!', digitalodysseyblog.wordpress.com/tag/craig-walsh Craig Walsh, *Murujuga in the Pilbara*, https://www.craigwalsh.net/portfolio-items/murujuga-in-the-pilbara/ **Ai Weiwei** • *Tate*, 'The Unilever Series: Ai Weiwei: Sunflower seeds', https://www.tate.org.uk/whats-on/tate-modern/unilever-series/unilever-series-ai-weiwei-sunflower-seeds **Ash Keating** • *MCA,* 'Ash Keating: Activate 2750'*, https://www.mca.com.au/c3west/ash-keating-activate-2750/* **Antony Gormley** • *Antony Gormley*, 'Projects: Inside Australia 2002–2003', www.antonygormley.com/projects/item-view/id/248#p0 • *Inside Australia: Lakeballard,* 'Podcast: Lake Ballard — Inside Australia' (audio), https://lakeballard.com.au/ **Daniel Boyd** *These videos may contain names, images or voices that cause distress to Aboriginal peoples and Torres Strait Islander peoples.* • *MCA,*'Artist Profile: Daniel Boyd' www.mca.com.au/artists-works/artists/daniel-boyd/ • *Daniel Boyd interviewed in 2007 on 'We Call Them Pirates Out Here',* www.youtube.com/watch?v=L8Fb1VFu_CU **Greater Together exhibition** • *Greater Together Exhibition Video*, www.youtube.com/watch?v=ieuqzw52-1I • *Greater Together Behind the Scenes*, www.youtube.com/watch?v=wpRd853JN14 • *The Sydney Morning Herald*, 'Greater Together celebrates artistic collaborations, yet individual voices shine', www.smh.com.au/entertainment/art-and-design/greater-together-celebrates-artistic-collaborations-yet-individual-voices-shine-20170814-gxvpai.html • *TimeOut*, 'Greater Together', www.timeout.com/melbourne/art/greater-together • *ACCA*, 'Greater Together', acca.melbourne/exhibition/greater-together • *ACCA*, 'Bik Van Der Pol', content.acca.melbourne/uploads/2017/07/Greater-Together-Wall-Labels.pdf • *Robert Andrew*, Tracing Inscriptions, 2022-2022 https://www.qagoma.qld.gov.au/stories/robert-andrew-swinging-branches-and-rocks-build-up-a-visible-residue • Carolyn V Watson, The Comfort of Shared Uncertainty, 2024*, https://www.carolynvwatson.com/* • *Helen Pynor***,** *Exhale, 2005*, http://www.helenpynor.com/works.html **QCAA Supporting Resources** Supporting resource: Contexts Supporting resource: Media areas Supporting resource: artist's statement

Time	Subject matter	Learning experiences	Resources
	– visual art terminology when analysing and interpreting the application of visual language in their existing work and when justifying selection of visual language for further emphasis or exploitation – language conventions to construct responses for different purposes and within specified conditions, such as analysing and interpreting artworks of others; evaluating and justifying divergent approaches and viewpoint; constructing authentic artist's statements designed to communicate with a wider gallery audience – referencing conventions to locate and acknowledge sources when researching information and ideas about divergent approaches in contemporary art – literacy skills to write artist's statement/s that ▪ assist audience understanding of focus ▪ consider the role of the artist's statement to enable wider audiences to construct personal meaning and interpretations when viewing artwork – critical literacies across visual, aural, kinaesthetic, spatial and multimodal devices to assist and demonstrate learning when interpreting and making meaning • realise – responses to communicate alternate meaning and deepen understanding of contemporary art theories and knowledge gained through inquiry – intentions in the body of work by engaging with inquiry learning to guide alternate approaches and experimentation, and refine the application of knowledge and art media to communicate meaning – ideas about contemporary art approaches and theories to make and respond to artworks that evolve their personal aesthetic – by manipulating and exploiting art materials, techniques, technologies and processes to translate and interpret ideas and convey meaning in artwork/s defined by the student-directed focus – artwork through real or virtual display to demonstrate consideration of audience experience – written responses to synthesise knowledge and understanding of context and meaning in art. **Key terminology** How do artists and audiences write and talk about art? Students: • build on and apply visual art terminology when writing about and talking about artworks of self and others as they become familiar with the following key terms – contemporary context — informs the analysis and interpretation of past and present artwork through a lens of 21st century art ideas and issues, and how these challenge engagement, communication and meaning – evolve — to develop or enhance, often into a more complex, specific, controlled or advanced state.	• **Case study: key artist 3 — Candice Breitz** (South African, born 1972; lives in Berlin) – art practice ▪ Breitz primarily works in video and photography and often refers to and appropriates images from popular culture ▪ her work questions the influences and impact of media, celebrity and language on the individual's sense of self ▪ she collaborates with ordinary people and found footage, which she cuts, selects and remixes to form new relationships – analysing and interpreting through contexts ▪ contemporary context — use of found media and HD digital film to comment on contemporary popular culture ▪ personal context — uses images that can be interpreted as personal metaphors for how we live our lives in a media-saturated environment ▪ cultural context — works are constructions of specific moments in pop culture that reflect society; appropriates time and place ▪ formal context — communicates meaning through the skilful use of time-based media and careful control of elements of film language such as editing and sound design. • Lead a discussion – students view *King (A Portrait of Michael Jackson), 2005* ▪ 16-channel video work. Breitz recruited participants via advertisements she placed on Michael Jackson fan sites. She selected 16 of the most authentic and fanatical fans and recorded each of them performing the entire *Thriller* album. Footage of them performing a cappella is presented in unison in screen-test mode across 16 screens in the gallery. The performance is both captivating and awkward ▪ the work explores the relationship between iconic stars such as Michael Jackson and communities of fans ▪ identity of the star and the fan become blurred, turning the fans' passive consumption into active production ▪ fans appropriate Michael Jackson to create their own interpretation; Candice Breitz appropriates and curates the performances of the participants to create her own work of art — a double game of appropriation – prompted by the teacher, students respond to the following ▪ What parameters and controls did Breitz as the artist set up in order to obtain the collaborative response she determined necessary for this portrait? ▪ How did Breitz install and curate this work to ensure that it communicated her intent effectively to viewers? • **Case study: key artist 4 — Deborah Kelly** (Australian, born 1962) – art practice ▪ mixed media artist working with both analogue collage techniques and digital stop motion animation ▪ works are often humorous, thought-provoking and politically motivated – analyse and interpret through contexts ▪ contemporary context — contemporary mash-up of both analogue and digital media ▪ personal context — works are always personally and politically motivated ▪ cultural context — works interrogate notions of discrimination that exist in society ▪ formal context — uses formal arrangements and curatorial devices to present her appropriations back to audiences.	

Time	Subject matter	Learning experiences	Resources
		• Lead a discussion *This resource contains content that will require teachers to consider sensitivity of the students and the teaching context. Teachers should consult with school leaders and the school community about the suitability of any sample resources.* – students view *Deborah Kelly: No human being is illegal (in all our glory)*. This work was created by Kelly and 47 collaborators who constructed analogue collage on top of the full-size nude photographs of 19 models who volunteered to be the subjects of the artwork ▪ collaborators listened to readings, written by the subjects or delivered by the subjects themselves, as they constructed images that reflected the interests or personality of the subject ▪ aspects of the subject's identity were meticulously collaged for interpretation by audiences ▪ re-contextualised and re-imagined imagery from picture books that have been superseded by the internet – prompted by the teacher, students respond to the following ▪ How is Kelly both the artist and 'artist facilitator' of this work? ▪ At which juncture(s) in the production of the artwork (beginning, middle, end) did Kelly require collaboration from others to ensure the success of the work? How are individual contributions evident in the work? ▪ What aesthetic qualities does Kelly retain creative control of? How did she mitigate risk in achieving the aesthetic goals of the work? *This resource contains content that will require teachers to consider sensitivity of the students and the teaching context. Teachers should consult with school leaders and the school community about the suitability of any sample resources.* • **Case study: key artist 5 — Daniel Boyd** (Kudjla, North-east region, Gangalu, North-east region, born 1982) – art practice ▪ collaborates with the past through appropriation of historical paintings depicting scenes and figures of colonisation ▪ humour contrasts with underlying darker themes of discrimination and invasion – analyse and interpret through contexts ▪ contemporary context — challenges romantic notions of Eurocentric history ▪ personal context — uses his own family history from both his South Sea Islander (Vanuatu) heritage and also his Aboriginal heritage, growing up in Yarrabah just outside of Cairns ▪ cultural context — presents cultural contrast of truth and remembered history through Aboriginal perspective ▪ formal context — appropriation and scale, later works constructed of dots in reduced palettes. • Other suggested key artist case studies – Yayoi Kusama (Japanese, born 1929) 'Before the first dot. Yayoi Kusama's obliteration room' – Lee Mingwei (Taiwanese, born 1964) 'Artists: Lee Mingwei — Writing the Unspoken' (1999) – Ann Hamilton (American, born 1956) 'Ann Hamilton: the event of a thread' (2012); 'Between Text and Textile — Ann Hamilton's 'habitus'' (2016) – Alison Knowles (American, born 1933) 'Performance: Make a salad', Fluxus event score exhibited 1962, and re-exhibited TATE Modern (2008)

12 hours		**Student-directed experimentation — Alternate forms of artistic authorship (Collaborative art practice)** Making (primary response): • students continue to build on their focus, knowledge and art practice from Unit 3 by adopting alternative forms of artistic authorship (collaborative art practice) to evolve their focus and art practice • the degree of collaboration employed by students may be considered along the following continuum – low level of collaboration and interaction with a limited number of people or agencies occurring only at the start of the creative process. Students may ▪ ask for input from collaborators in relation to their focus ▪ use the images, artefacts or research they gather from other people to dictate a new artist-driven and artist-created work ▪ engage in no further interaction with collaborators except to acknowledge and document their contribution to the work – high degree of collaboration and interaction with people or agencies that takes place both initially and throughout the creative process. Students may ▪ ask initially for input from a network of people ▪ reflect on the information, images or objects they gather from the initial interaction ▪ identify a more select audience and improve, adapt or control the types of responses and inputs from collaborators ▪ realise these responses in an artist-devised artwork or choose to curate and install the responses of others in visually coherent way – no initial or on-going interaction with people or agencies. A very high degree of participation and collaboration with an audience that occurs at the end of the creative process when the work is displayed. Students may ▪ design a resolved work that relies on immediate audience interaction	**Suggested artists and artworks** • Gosia Wlodarczak and Longin Sarnecki, https://artistprofile.com.au/gosia-wlodarczak/ • Sophie Calle, *Take Care of Yourself, 2009 https://www.paulacoopergallery.com/exhibitions/take-care-of-yourself#tab:slideshow;tab-1:thumbnails;slide:2* • Hiromi Tango, https://hiromitango.com/ • Antony Gormley, *Field*, 1989–2003 https://www.artgallery.nsw.gov.au/collection/works/314.1993/ • Alfredo and Isabel Aquilizan, *In-habit*, 2012 https://mgnsw.org.au/sector/exhibitions/past-exhibitions/in-habit-project-another-country/ • Craig Walsh, *Murujuga in the Pilbara*, 2012–2013 https://www.craigwalsh.net/portfolio-items/murujuga-in-the-pilbara/

		and collaboration ▪ stage an artist-devised but audience-dependent work in a way that demands participation or interaction from audience. **Student-guided making through inquiry learning processes** Reflecting: • consider the collaborative approaches used by each of the key artists in the case studies • determine a collaborative art experiment that will obtain input from others to explore their focus from a new perspective • document where the experiment sits on the continuum of collaborative practice (‘Traditional vs Collaborative Approaches to Art Production’ student handout). Researching: • experiment with traditional and new media methods to collect evidence and input from collaborators. Developing: • devise instructions for collaborators • test instructions on sample collaborators before implementing the experiment • consider how the aesthetic qualities of the evidence or input from collaborators will be controlled • consider the expectations on collaborators in terms of time, skill, privacy and ownership of contributions. Resolving: • use the input obtained from experimental collaboration to produce a proposal for one or more resolved artworks • document the proposal in a PowerPoint and present it for peer critique. Reflecting: • view and critique peer proposals • use feedback to improve approach of alternate forms of artistic authorship. • Reflection — guiding questions: – How might you improve the way your work communicates meaning using alternate methods of display or new technologies? – How might you realise your artistic intentions and expand the communication of meaning of your artwork? – How can you engage audiences more effectively in a sensory or aesthetic experience? Making (secondary response): Students: • reflect on the impact of collaboration and feedback on the primary response • research, develop and refine the experimental primary response proposal or an alternative proposal, using a different degree of collaborative art practice to further explore the Unit 3 focus • employ critical thinking skills to challenge their art practice and evolve meaning by inviting input from others in their creative process • conduct student-guided making through inquiry learning processes – reflect ▪ document where the secondary response will sit on the suggested continuum of collaborative practice (‘Traditional vs Collaborative Approaches to Art Production’ student handout) ▪ consider how aesthetic qualities of the final artwork and

		communication of meaning will be controlled – research ▪ further research relevant media, materials, technologies, artists or curatorial approaches that will help give unity and cohesiveness to resolved work – develop ▪ plan an artistic practice that sequences and controls the degree of and quality of collaboration from others ▪ test and refine instructions for collaborators to ensure the quality and quantity of required input – resolve ▪ install the alternate collaborative artwork in an informal display to realise the secondary response ▪ write an artist statement (maximum 150 words) to accompany the work ▪ document/photograph the installed artwork.	
18 hours		**Summative Internal Assessment 3 (IA3): Project — inquiry phase 3** Making and responding: • students – work independently to make and display artwork that expands on and communicates the focus stated in IA1 and further developed in IA2 – select media area/s to communicate focus and intentions – select and prepare IA3 submission including ▪ single resolved work or a collection of resolved artworks ▪ written artist statement/s (maximum 150 words per statement) that include title, media and size, and assists audience understanding of student focus and intended meaning ▪ written annotations (maximum 200 words) to justify their developing, researching and reflecting processes ▪ photographic or digital evidence of real or intended display of work ▪ supporting evidence that demonstrates their ability to communicate the development of solutions, research and experiment in the creative process, evaluate and use judgment during problem-solving. Role of the teacher: • consult regularly with students individually to monitor progress and provide formative feedback • facilitate peer feedback and sharing opportunities • present students with a range of artists, artworks and processes that offer divergent perspectives, ideas and art practices to challenge, extend and refine ideas • assist students to recognise characteristics of resolved work.	
6 hours		**Throughout the unit, students prepare for external exam in the following ways**: • respond to artworks in paragraph responses • use a scaffolding template to plan comparison extended response • consider relationships and dialogue between diverse artworks • engage with artworks through diverse contexts to understand and appreciate how artists incorporate a range of influences and layers of meaning • use context-guiding questions to develop understanding of each of the four contexts, both individually and in combination, and how they provide alternative ways of analysing and interpreting artworks	**Extended response scaffold for comparison**

Time	Subject matter	Learning experiences	Resources
		– Contemporary context guiding questions, such as: ▪ How is meaning and significance of past artworks challenged when viewed through a lens of 21st century ideas and issues? – Personal context guiding questions, such as: ▪ How does an artist's practice reflect the influences of their life and experiences? – Formal context guiding questions, such as: ▪ How is knowledge of art conventions and symbols applied by the viewer when decoding artworks? – Cultural context guiding questions, such as: ▪ How do artists comment on and draw meaning from historical, technological or social events?
